(2) for people of all ages, including a great theatre and a history museum. Our roads have wide ..... (3), so it is not a problem ..... (4) disabled people to travel around.

**The answers**

1- .....

2- .....

3- .....

4- .....

**3- Read the following, then answer the questions:**

**(6 Marks)**

Everything that is alive needs energy. All animals get the energy they need from food. Think about the human body as an amazing machine. It can do all kinds of things for us. Food is the fuel that helps keep the amazing machine running. Plants use sunlight to make their own food. Animals are not able to do that. Some animals eat plants. Some animals eat other animals as meat. People eat both plants and animals. Since plants make their own food using sunlight, the sun's energy is found in plants.

The sun's energy is very strong. It loses a lot of its strength by the time it goes into a plant. When we eat plants, we get more of the sun's energy than when we eat animals. That's why it is good to eat fruits and vegetables. Like a car that has to be filled with gasoline living things have to eat again and again. Instead of gasoline, living things use food as fuel.

**A: Choose the correct answer from a, b, c or d:**

- 1) Where do all animals get their energy?  
a) gasoline      b) plants      c) food      d) people
- 2) ..... can't use sunlight to make their own food.  
a) Animals      b) Plants      c) Vegetables      d) Fruits
- 3) What could the word (alive) mean in this reading?  
a) living      b) dead      c) late      d) lifeless

**B: Answer the following questions:**

- 4) What is a good title for the passage?  
.....
- 5) Where do plants get their energy?  
.....
- 6) Why do we get more energy from eating vegetables than we get from eating meat?  
.....

**The answers**
